

Osaka Shoin Women's University Japanese Classes

「Kindergarten・Nursery school Japanese」

As a community service started in 2015, Japanese classes for the purpose of cross-cultural exchanges at Shoin Women's University will continue this year.

For the fourth time we will be opening a Japanese teaching class to the community. The aim of this course is for foreign parents to be able to understand and read words that are used in a kindergarten and nursery school.

Why don't you come and join us?

Learning contents of the Japanese class
